# WTF is ID?

A Semi-Autobiographical Approach

It's not new.
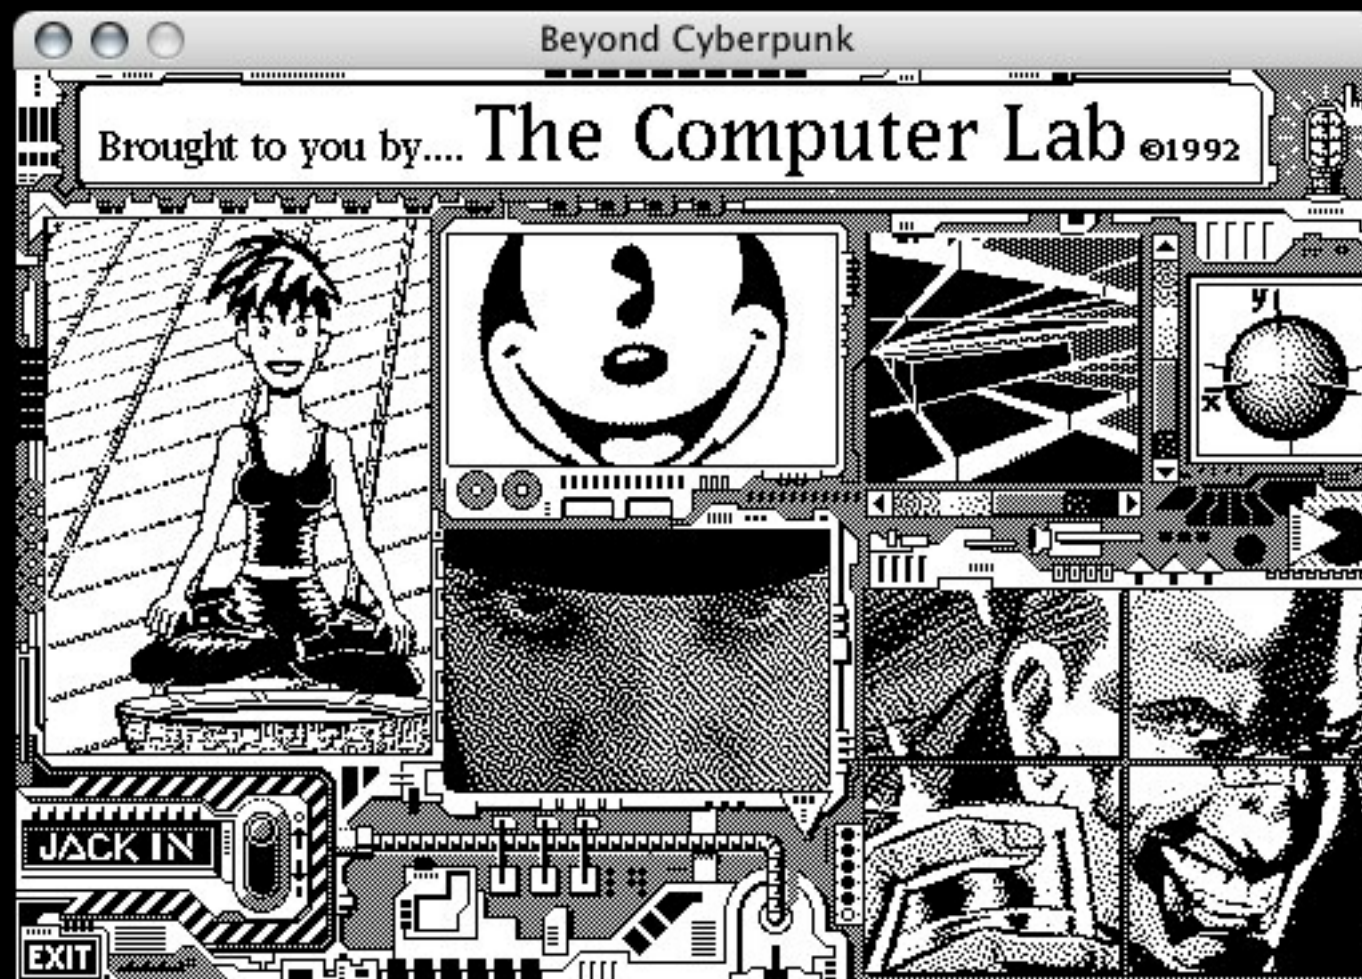

World Builder

1986

Hypercard

1987

Web

1992

Web = Primary Platform

But not the only platform...

- Site Specific installations

- Mobile

- Native PC

- Console Gaming

- Arduino (Programmable Electronics)

Interactive development is the user facing domain of programming. It is the portion of software concerned with human interaction.

Who are "Interactive Devs" ?

Many Titles

- Interactive Developer

- Creative Developer

- Front End Developer / Engineer

- UI/UX Developer / Engineer

- Web / Flash / Silverlight / JavaScript / iOS / Android Developer

It's about YOU

And these dudes...

Jayson Potter

Front End Web Application Developer
"Responsive UI"

Paul Mealy

Interactive Architect
"Signature Theatre"

Thanks!
